1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
2. Claims 3-4, 6-9, 17 and 19-25 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 1 as it stands now is limited to step d), in which the specific binding molecule is coupled to the self-assembling monolayer, being carried out in the presence of polyethylene-glycol-diglycidyl-ether or PEGDGE. In example 1 in the paragraph bridging pages 12-13, the immobilization of the fusion proteins on the gold surface is carried out by EDC-mediated coupling, PEGDGE entrapment or glutaraldehyde coupling. The three methods are further explained on page 13 and it is noted that only the PEDGDE entrapment is carried out in the presence of polyethylene-glycol-diglycidyl-ether. Also the explanation of the PEDGDE entrapment does not teach the use of either 1-(3-dimethylaminopropyl)-3-ethyl-carbodiimide or glutaraldehyde in the process. Thus these methods are independent and claims 3-4 and 17 claiming the reagents for the EDC-mediated and glutaraldehyde coupling methods are not within the scope of the original specification.
3. Claims 1, 5, 11-16 and 18 are allowed for the reasons of record.
4. Claims 6-9 and 19-25 would be allowable if rewritten to remove the dependency on claims 3-4 for the reasons of record and it would remove the rejection under 35 U.S.C. 112, 1st paragraph, set forth in this Office action.
5. Applicant's arguments with respect to claims 3-4, 6-9, 17 and 19-25 have been considered but are moot in view of the new ground(s) of rejection.
6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
